## Documentation

Get started with Angular, learn the fundamentals and explore advanced topics on our documentation website.

- [Getting Started](#)
- [Architecture](#)
- [Components and Templates](#)
- [Forms](#)
- [API](#)

## Advanced

- [Angular Elements](#)
- [Server Side Rendering](#)
- [Schematics](#)
- [Lazy Loading](#)
- [Animations](#)

## Development Setup

### Prerequisites

- [Install Node.js which includes Node Package Manager](#)

## Setting Up a Project

Install the Angular CLI globally:

```
npm install -g @angular/cli
```

Create workspace:

```
ng new [PROJECT NAME]
```

Run the application:

```
cd [PROJECT NAME]  
ng serve
```

Angular is cross-platform, fast, scalable, has incredible tooling, and is loved by millions.

## Quickstart

Get started in 5 minutes.

## Ecosystem

- Angular Command Line (CLI)
- Angular Material

## Changelog

Learn about the latest improvements.

## Upgrading

Check out our upgrade guide to find out the best way to upgrade your project.

## Contributing

### Contributing Guidelines

Read through our contributing guidelines to learn about our submission process, coding rules, and more.

## Want to Help?

Want to report a bug, contribute some code, or improve the documentation? Excellent! Read up on our guidelines for contributing and then check out one of our issues labeled as `help wanted` or `good first issue`.

## Code of Conduct

Help us keep Angular open and inclusive. Please read and follow our Code of Conduct.
